10.24.12
JAN SCHNITZER, M.D., Proteomics Research Institute for Systems Medicine; Tobacco-Related Disease Research Program, University of California
“Overcoming drug and gene delivery barriers through targeted proteomic imaging in vivo”
Co-Supporter: University of Missouri—St. Louis, Office of Research Administration

10.25.12
MARIE CSETE, M.D., Ph.D., Director of Cell Therapy for AABB
“Explore the complex process in moving stem cell therapies to the clinic from clinical trial case studies.”
Co-Supporter: Missouri Cures Education Foundation

11.07.12
DAVID M. GOLDENBERG, Sc.D., M.D., President, Center for Molecular Medicine and Immunology, Garden State Cancer Center
“Multivalent, Bispecific Antibodies in Cancer Imaging and Therapy”
Co-Supporter: Siteman Cancer Center

12.05.12
STEPHEN RUSSELL, M.D., Ph.D., Dean for Discovery and Experimental Research, Mayo Clinic
“NIS-expressing Oncolytic Viruses for Cancer Therapy”
Co-Supporter: Division of Gynecologic Oncology, Department of Obstetrics and Gynecology

01.23.13
DANNY WELCH, Ph.D., Associate Director of Basic Science, The University of Kansas, Cancer Center
“Genetic and Epigenetic Regulation of Cancer Metastasis”
Probstein Oncology Visiting Lectureship on Radiation Oncology

02.20.13
ANA PAOLA COTRIM, D.D.S., Ph.D., Gene Transfer Section, Molecular Physiology and Therapeutics Branch, National Institute of Dental and Craniofacial Research, NIH
“Gene Therapy for Radiation Induced Salivary Hypofunction”
Co-Supporter: Department of Otolaryngology

03.20.13
WAYNE A. MARASCO, M.D., Ph.D., Professor, Department of Cancer Immunology & AIDS, Dana-Farber Cancer Institute, Harvard Medical School
“Toward a Universal Influenza Vaccine”
Co-Supporter: Saint Louis University School of Medicine, Division of Infectious Diseases, Allergy and Immunology, Department of Internal Medicine

04.10.13
BEVERLY L. DAVIDSON, Ph.D., Director, Gene Transfer Vector Core; Associate Director, Gene Therapy Center for Cystic Fibrosis and Other Genetic Diseases, University of Iowa;
“Emerging Therapies for Central Nervous System Diseases”
Co-Supporter: The Hope Center

05.14.13
ANDREW RAUBITSCHEK, M.D., Co-leader, Cancer Immunotherapeutics Program, Comprehensive Cancer Center, Cancer Immunotherapeutics and Tumor Immunology, City of Hope
“Antibodies—Bench to Bedside and Back”
Co-Supporter: Department of Medicine, Division of Infectious Diseases

Special guest speaker:
KARL SKORECKI, M.D., FRCP(C), FASN, Director, Medical and Research Development Rambam Health Care Campus, Haifa, Israel
“The Genetics of Being Jewish” (06.03.13) & The Population Genetics of Kidney Disease: Translational Research Discovery (06.04.13)
Co-Supporter: Missouri Cures & The Jewish Federation of St. Louis
